COOKSWELL JIKOS

SAVE MONEY, SAVE ENERGY, EAT WELL!

At Cookswell Jikos, we provide our customers with professional charcoal and wood fueled stoves, ovens, space heaters and charcoal kilns. Roast, bake, steam, or smoke your food in our efficient, easy to use ovens. Our products are handcrafted in Kenya by professionally trained Kenyan artisans.

The designs have improved over 18 years with constant consumer feedback. We include tree seeds with every stove and oven purchased to further the goal of making charcoal a sustainable energy source. We sell a wide variety of indigenous Acacia tree seeds that grow well around Kenya.

Cookswell Jikos promotes sustainable production, management and processing of wood fuels as one of the renewable energy sources for East Africa's cooking needs.

We make portable, mobile kilns to make your own charcoal at home. Order your new stove or oven and have it delivered to any major town in Kenya. We also have a network of local transport providers for delivery around East Africa.

KUSEV FARM

Kusev Farm is an idea born in Kenya by a Kenyan by the name Peter Oywaya who just wanted to show that anybody could do something different from what everybody else is doing, mainly in the line of poultry farming.

Kusev farm chose to deal in heritage turkey farming and with time we may venture into other exotic birds such as the quill, dove, guinea fowl, ostrich, peacock and any other. The farm is located in Kiserian, in the greater Nairobi.

Kusev Farm is out to save mother earth by recycling all that it possibly can and to conserve the environment as much as it can. Kusev Farm is a typical example of people who are mindful of the environment and at the same time having a lot of fun and beauty.

Turkey Poults Supply

We supply poults to those who want to be turkey farmers. They are supplied a week after they have been vaccinated, taught how to eat and their sexes determined.

One order for poults in advance. This enables us to be sure of what we have in stock. We also supply older poults depending on the client's need and the price varies with age.

The Kenya Post Office Savings Bank (Postbank) was established in 1910. Similar Savings services were offered across the East Africa region. When the East African Community broke up in 1977, the Kenya Government established its own savings bank. Postbank is primarily engaged in the mobilization of savings for

national development and operates under the Kenya Post Office Savings Bank Act Cap 493B.

Postbank is committed to the standards of corporate governance as set by the government and the Central Bank of Kenya for the public sector. The Board of Directors is responsible for the long term strategic direction for profitable growth for the bank while being accountable to the shareholder for ensuring that Postbank complies with the law and the highest standards of corporate governance and business ethics.

Bayer East Africa

Bayer East Africa is a subsidiary of Bayer AG, a global enterprise with core businesses in crop science, health care and high tech materials. The Group offers customers a wide range of products and services and

concentrates on the growth and innovation-driven core businesses via three subgroups:-Bayer HealthCare, Bayer CropScience and Bayer MaterialScience.

We are reliably aligned to our new mission statement "We have set our course for the future' and continue to optimise our portfolio, concentrating our activities in the three high-potential, efficient subgroups with largely independent operations. These provide us with access to major regional markets and are supported by our service companies.

Based in Nairobi, Kenya, Bayer East Africa oversees Bayer's business ventures in the region. The strategic location enables Bayer to favourably market and supply its products in Kenya, Uganda and Tanzania.

Our stakeholders include farmers and growers, distributors and dealers, our food chain partners, our employees, our shareholders, and the public. Our detailed knowledge and understanding of agriculture and the agricultural market in eastern African countries and our comprehensive offer comprising a strong and well-balanced portfolio of products and services enables us to precisely meet the needs of each customer. We aim to ensure that all our stakeholders reap the benefits of this partnership.
